

Skid Mounted Systems

As the **demand** for modular/skid mounted systems continues to increase, Applied Chemical Technology has **expanded** our capabilities to **meet the challenges** of the growing market and the demands of our clients in the chemical, pharmaceutical, fertilizer, biotech, polymer, energy and alternative fuels industries. Our addition of **skilled manpower, design tools and automation/control** expertise has enabled ACT to provide **custom** skid mounted systems in a **timely** manner and at an **economic** cost. Our experience in the design and fabrication of skid mounted systems include small pump skids and **multi-million** dollar chemical plants.

The popularity of these systems continues to **grow** due to **reduced** installation **labor** cost, and **efficient** utilization of **space**.
